

January 29, 2024

SUBJECT: Addendum No. 1 for Wastewater Treatment Chemicals

REFERENCE: Invitation to Bid (ITB) No. 240013

TO: All Prospective Bidders:

This Addendum is being issued for the following reasons:

- **THE FOLLOWING QUESTIONS AND CLARK COUNTY WATER RECLAMATION DISTRICT (DISTRICT) RESPONSES ARE HEREBY INCORPORATED AND MADE A PART OF THE ITB:**

1. May I get the last bid tab and current supplier/price for Ferric Chloride?

Answer: Yes, please see Attachment 1 entitled Current Contract No. 190032 Bid Tabulation. The District's current price for Ferric Chloride is \$1,289.00 per Dry Ton/Delivered.

2. Is there an odor control bid out, as well?

Answer: Currently, the District does not have an Order Control Solicitation out. All District open solicitations can be viewed from its website at <https://www.cleanwaterteam.com/doing-business/procurement/bid-opportunities>.

3. Could you please supply us with the previous bid tabulation to the current bid "Wastewater Treatment Chemicals" due 02/15/2024?

Answer: Please see Answer/Response to Question 1 of Addendum 1.

4. If different from the bid tabulation, please provide current supplier pricing?

Answer: The following are the contract holders' current prices for the various chemicals:

**Thatcher Company – Aluminum Sulfate (Las Vegas Water Resource Center) \$647.00 dry ton/delivered and (Laughlin Water Resource Center) \$702.00 dry ton/delivered;
Citric Acid (Las Vegas Water Resource Center) \$1.78 wet lb./delivered;
Sodium Bisulfite (Las Vegas Water Resource Center) \$0.86 dry lb./delivered and (Laughlin Water Resource Center) \$1.27 dry lb./delivered;
Sodium Hydroxide (Caustic Soda) (Las Vegas Water Resource Center) \$0.34 wet lb./delivered.**

Pencoco Inc. – Ferric Chloride (Las Vegas Water Resource Center) \$1,289.00 dry ton/delivered.

Pioneer Americas LLC/Olin Corporation – Sodium Hypochlorite (Las Vegas Water Resource Center) \$2.12 per gallon/delivered and (Laughlin Water Resource Center) \$2.212 per gallon/delivered.

**ADDENDUM 1
WASTEWATER TREATMENT CHEMICALS
SOLICITATION NO. ITB-240013**

5. Approximately when after the bid opening would you anticipate the first delivery for Ferric Chloride would occur on the new contract?

Answer: It is anticipated that this new contract 240013 will begin on September 1, 2024. Therefore, the first orders/deliveries for Ferric Chloride shall be requested and fulfilled within this timeframe.

6. Can you please send the last bid tab on file for Water Treatment Chemicals. Wastewater Treatment Chemicals (Aluminum Sulfate, Citric Acid, Ferric Chloride, Sodium Bisulfite, Sodium Hydroxide and Sodium Hypochlorite)?

Answer: Please see Answer/Response to Question 1 of Addendum 1.

7. Will Clark County accept a \$ 50,000 deductible as section 5.1 asks for \$ 25,000?

Answer: No. The insurance requirements for this current Clark County Water Reclamation District ITB 240013, Per Attachment A - Insurance Requirements, Provision 5.0 Deductibles, Item 5.1 requires suppliers' deductibles to not exceed \$25,000.

8. Is the aluminum sulfate UOM bid in dry lbs or wet lbs?

Answer: Dry Ton.

9. Does the awarded vendor have to agree to inter-local government usage?

Answer: No. Per ITB SECTION C – GENERAL TERMS AND CONDITIONS, Provision 36.0 USE BY OTHER GOVERNMENT ENTITIES: 36.1 Nevada Revised Statutes 332.195 allows local governments to join or use the contracts of other local governments or the State of Nevada, with the authorization of contracting Supplier.

However, please be advised that it is highly encouraged that the SUCCESSFUL BIDDERS will accept jointers from other agencies because currently several Local Nevada Government Agencies are joined onto the DISTRICT'S Wastewater Treatment Chemicals contract.

10. On page 12, Method of Award, mentions you need to bid on all items to be considered. Is this accurate?

Answer: The bidder must bid on all items referenced within the specific LOT to be considered and/or deemed as the lowest responsive bidder for the specific LOT.

11. On pg 35, sec 7.13, it is mentioned that aluminum sulfate may be required to be supplied in totes. Can the bidder provide a separate tote price or adjust the awarded price for tote delivery?

Answer: No. The unit price as reflected within this bid and/or any approved annual price increase/decrease shall be the official price used to determine the adjusted tote rate based upon the amount of chemical needed (i.e. the Annual Rate for Aluminum Sulfate is \$647.00 per dry ton (2,000 lb) and it takes 500 dry lb to complete a tote order, the price of tote inclusive of delivery shall be \$161.75). Unit price $\$647 / 2,000\text{lb} = \0.3235 per dry lb x 500 dry lb = \$161.75.

12. What is the current price of liquid aluminum sulfate?

Answer: Please see Answer/Response to Question 4 of Addendum 1.

**ADDENDUM 1
WASTEWATER TREATMENT CHEMICALS
SOLICITATION NO. ITB-240013**

NO ADDITIONAL QUESTIONS WILL BE ACCEPTED AND ANSWERED

When issued, this Addendum shall automatically become a part of the solicitation documents and shall supersede any previous specification(s) and/or provision(s) in conflict with the Addendum. All revisions, responses, and answers incorporated into this Addendum are collaboratively from both the DISTRICT Purchasing Solutions Section and the applicable End-User Department. It is the responsibility of the bidder to ensure that he/she has obtained all such Addendum(s). By submitting a bid on this project, bidders shall be deemed to have received all Addendum(s) and to have incorporated them into this ITB.

If you have any questions or if further clarification is needed regarding this ITB, please contact me.
