

**CLARK COUNTY WATER RECLAMATION DISTRICT
STATEMENT OF QUALIFICATIONS 2025 USER GUIDE**

SERVICES: Surveying

Firm to demonstrate experience in the retracement of boundary lines, easements, limits of right-of-way, and research to enable the survey to be performed. This work includes the resolution of conflicting surveys, identifying, and addressing title issues within the scope of the land surveyor's authority, the preparation of certified legal description of the area surveyed and acquisition areas, preparation of right-of-way plans/plats, and measurement of the earth's contours and planimetric features, establishment of ground control on Nevada State Plane East coordinates or coordinate system specified in the District CAD Manual, aerial mapping and field verification of mapping.

Minimum Qualifications

EMPLOYEE EXPERIENCE

A minimum of one (1) Nevada Professional Land Surveyor (PLS) is required. Relevant experience of topographic site survey for pipelines, roadway, drainage, flood control, and site development and projects for which boundary surveys for limits of right-of-way, easements, and property lines were retraced is required. The PLS must have been a licensed professional land surveyor for at least five (5) years.
